DESIRABLE LOCATION SELECTED.

The Y. M. C. A. Building
Will Be Opposite the
Postoffice.

A DESIRABLE LOCATION.

The Price Was \$2,300 And
the Lot Is 46 By 94
Feet.

The Directory of the Y. M. C. A.
held a business session Friday night
and closed a trade for the Over-
shiner lot, next to the Cumberland
Telephone office on Ninth street.
The price was \$2,300 for a lot 46 by
94 feet. The corner lot in the Hill
property on Main street was offered
for \$3,000, a larger and deeper lot,
and the Frankel lot on Ninth street,
West of the First National Bank,
was to be had at about the same
price. In buying the smaller lot, the
Directors thought it better to
put the additional money in the
building and its furnishings. It is
understood that the Overshiner
brothers will give \$200 off the pur-
chase price of the lot.

The location is a very desirable
and central one and will give gen-
eral satisfaction. The plans for the
building are now being matured,
and the work will begin in the
spring.

FARMERS THOROUGHLY AROUSED.

Large and Enthusiastic Meet-
ing at Pembroke Sat-
urday.

STIRRING SPEECHES.

A Few Share Crops Are Be-
ing Sold at Old Time
Prices.

The meeting of the Tobacco Grow-
ers at Pembroke Saturday was large-
ly attended and much enthusiasm
was manifested. The farmers are
thoroughly aroused and in dead ear-
nest in the fight, that now seems
vitally won.

Many new members were enrolled
and from 500,000 to 800,000 pounds
of additional tobacco was pledged to
the movement.

The meeting was addressed by
Col. Felix G. Ewing, Mr. John E.
Garner and Mr. John B. Allen, all of
whom made stirring speeches and
created great enthusiasm.

The Trust is bound to have the to-
bacco and the farmers already see
what organization will do. One of
the speakers said:

"The combine set out with an un-
derstanding to pay 4 and 2, and 5
and 2 for best crops. Now, when
they find they can't buy it for that
they realize that they can pay 8
cents, the farmers, price, for best

called to meet at the Court House in
Hopkinsville, Ky., on Thursday
Dec. 29, 1904, at 10:30 a. m.

Col. F. G. Ewing, President of the
Association, Mr. John E. Garner,
Mr. John B. Allen, and others, will
be present and address the meeting
and explain the objects and pur-
poses of the Association and what it
has already accomplished. Every farm-
er and every one interested in the
better price of tobacco in Christian
and adjoining counties is urged to
be present, and we earnestly ask all
such to stand together and not let
sell or dispose of their tobacco until
they come and hear and understand
what has been accomplished by the
union of the farmers, as expressed
through this Association. The aim
of this Association is not to force
the buyers to pay an exorbitant
price, but to obtain a just and living
price for our tobacco, which we can
surely do if we stand together.
Nearly every county in the Dark
Tobacco District is better organized
than Christian. Let us not be be-
hind our neighbors. Come and
urge your neighbors to come.

E. D. JONES,
Chairman Christian County.

Among the farmers reported to
have sold at prices much higher than
last year are the following:

Dr. John P. Bell, Longview, \$6
round; sold last year at \$4.97; sold
100,000 lbs.

Mr. John C. Willis, Pembroke, \$7
round; \$6 last year.

Mr. H. W. Boxley sold 15,000 lbs.
at \$6; sold for \$5 last year.

Mr. Crenshaw sold 20,000 lbs. at
\$6.

J. F. Garnett, Casky; T. W. Gar-
nett, Casky, and J. W. Lander,
Church Hill, have also sold at \$6,
about \$1.00 to \$1.50 more than they
got last year. If these outsiders are
benefitted to this extent, those who
go into the organization and help to
make it a success may expect to get
still more.

The plan of the Trust, of course, is
to buy enough for immediate de-
mands, here and there over, the en-
tire district, and then try a freeze-
out on the members of the organi-
zation. But fortunately the great
German market wants the same
type of tobacco and by prying and
shipping the farmers can reach a
competitive market as they could
before the warehousemen were
forced out of business by the Trust.

Dr. Bell, who sold his large crop,
says he was forced to close out his
year's business with share hands to
whom he had advanced supplies and
whose crops he could not sign. He
has made new contacts under
which he will control the crops next
year and says he will join the organi-
zation at once. The other farmers
who sold probably had similar com-
plications and are really in hearty
accord with the movement.

John J. Rust, of Nashville, is vis-
iting his grandmother, Mrs. M. G.

VENERABLE LADY

Passes Away From a Stroke
of Paralysis.

Mrs. Nancy L. Stevenson died at
her home in this city Sunday morn-
ing at 8 o'clock, of a stroke of pa-
ralysis. She was stricken Friday and
never rallied. Her maiden name
was Lander and she was a sister of
Mrs. Pauline G. Lander. Three
daughters survive her, Miss Bettie
Stevenson, Mrs. A. J. Reeder and
Mrs. R. D. Reeder. Her two sons
died years ago. One of them was a
Union soldier and died while in the
army.

Mrs. Stevenson was 76 years of age
and had been in good health until
prostrated with the stroke that caus-
ed her death. She had long been a
member of the Cumberland Presby-
terian church.

Her funeral services were held
yesterday afternoon at the residence,
by Rev. J. L. Wyatt, her pastor, and
the interment took place at Hopewell
Cemetery.

SEED TIME

"An experienced farmer
has learned that some
grains require far differ-
ent soil than others;
some crops need differ-
ent handling than others.
He knows that a great
deal depends upon right
planting at the right
time, and that the soil
must be kept enriched.
No use of complaining
in summer about a mis-
take made in the spring.
Decide before the seed
is planted."

LARGE DEER.

Fine Specimen Seen Not Far
From Herndon.

A deer was seen not far from the
Striped Bridge, ten miles South of
the city, last Thursday afternoon.
Mr. Stephen W. Johnson, while en-
route home from Herndon, came
upon the animal, which was a very
large and fine specimen, with horns
of several prongs. As soon as the
deer saw Mr. Johnson it bounded
away across the field and in a few
moments was lost to view. A hunt-
ing party was made up the next
morning, but the deer could not be
located.

crops, just here and there, to break
the organization. The organization
once broken, the trust will let prices
down and have its own way with the
farmers."

A few crops have been sold at prices
far in advance of the Trust prices
last year. We believe these growers
are acting unwisely in selling out-
side the organization. We do not
propose to use overhated language,
but we would join with Chairman
Jones, who issues a call today, in
urging the growers to stand as one
man until the leaders can make con-
tracts in the interest of all.

A Former Christian County Woman Dies in Clarksville.

The wife of Mr. Geo. S. Gilbert, a Clarksville attorney, died Wednesday. Mrs. Gilbert was formerly Miss Loula Lowry, daughter of Mr. S. J. Lowry, of near Garrettsburg, this county, and was about thirty years old. She had not enjoyed good health for several months, but the immediate cause of death was pneumonia.

She was married to Mr. Gilbert about eight years ago, and is survived by a husband and one child, a little daughter.

Deceased was a member of the Baptist church, a good woman, and her demise causes sincere regret among a host of friends. The interment took place in Greenwood cemetery, Clarksville.

Coughing Spell caused Death

"Harry Duckwell, aged 35 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation—St. Louis Globe-Democrat, Dec 1, 1901. Ballard's Horehound Syrup would have saved him. 25c, 50c and \$1.00. Sold by R. C. Hardwick.

THOUSANDS OF "TURKS"

Being Shipped to Northern Cities from Hopkinsville.

Thousands of turkeys are being shipped to the northern markets this season from Hopkinsville. Shipments are increasing with each day and will continue until sometime after the Holidays.

G. W. Wiley & Co., the 9th street dealers, shipped 780 turkeys to the market Wednesday. This number represents their purchases for Monday and Tuesday. They will have another lot ready in a day or two, as they are buying the birds in large lots. This is "turkey time," however, and this much esteemed bird is now the specialty with poultry dealers. Good prices are being paid here by Wiley & Co., and the sale of Christian county turkeys will foot up a big sum.

"I was much afflicted with sciatica," writes Ed C. Nud, Iowa ville, Sci-dwick county, Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three bottles. It is the greatest liniment I ever used; have recommended it to a number of persons; all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00. Sold by R. C. Hardwick.

The Rev. John W. Lewis, D. D., who was formerly presiding elder of the Louisville district of the M. E. church, south, has been made presiding elder of the East Nashville district of the Tennessee conference. He has for the past year been the presiding elder of the Jackson (Miss.) district.

Strange Experiences of Explorer Paul Du Chaillu in Wilds of Africa.

During one of his lecture tours through this country, the late Paul Du Chaillu told an amusing anecdote of one of his first trips into Africa. He had been staying for some time among a tribe on the west coast, and one day he asked the king for an escort to the chief, who had a city of a tribe farther inland. The king, who had taken a great liking to Chaillu, protested and tried to induce him to stay there and become a member of his tribe, but to no purpose; Du Chaillu was determined to go farther into the interior.

The king, who was a much married man, having more than a hundred wives, thought that if he could get Du Chaillu married to one of the maidens of his village he could keep him there without any difficulty. So he had all the maidens, of whom there were about a thousand, lined up in front of the explorer and told him to choose a wife that suited him. For a moment Du Chaillu was in a quandary as to how to get out of the difficulty without making an enemy of the king, but suddenly a happy thought struck him and he believed he had found a way out of the scrape, so turning to the king he said:

"They are beautiful maidens, but if I should choose one the others would all be jealous."

"True," replied the king, and then after a moment's thought, "take them all, take them all."

QUALITIES OF ASBESTOS.

Less Brittle Than Slate, More Adaptable and Equally Fire-proof.

The absolute incombustibility of asbestos renders it exceedingly useful for many purposes, despite its cost, says the New York Tribune. The mineral, being fibrous, can be spun and woven—that is, the best grades can—into a cloth which is suitable for theater curtains. When ground and combined with other materials, it can be wrought into an admirable substitute for wood. Such preparations, of which several are in the market, are light and tough. Nails can be driven through the compound without splitting it. Often the product is hard enough to ring like a piece of walnut. Either in large sheets or in small sections which overlap, it makes an admirable covering for roofs. It is less brittle than slate and equally fireproof.

Asbestos is such an excellent non-conductor of heat that it is often employed as a wrapping for steam pipes, where it serves a double purpose. It diminishes the loss from radiation, and prevents the ignition of adjacent wood-work. The German navy department has used a considerable quantity for lining bulkheads and lockers. It is an economical material for insulating cold stores.

BIT OF AMERICAN HUMOR.

Given as a Specimen of the Facetiousness Which Is Characteristic of Yankees.

Lance Thackeray and Tom Browne, the English illustrators, dined recently with Richard Canfield, of New York, relates the Tribune.

The young men said they were anxious to obtain specimens of characteristic Yankee humor, as they hoped to write a funny book about America on their return home.

"Well," said Mr. Canfield, "the only item I can give you for your book is a letter that a friend of mine in Anaconda wrote to a newspaper. Anaconda is a western town, and my friend is a miner there. His letter contradicted an obituary about himself that the newspaper had printed. It ran like this:

"Sir: I desire to call your attention to a few errors in your obituary of myself of Wednesday last. I was born in Washington, not in Wheeling, and my retirement from the floor and feed business in '96 was not due to ill health, but to hard times. The cause of my death was not pneumonia."

HE WANTS TO FLY.

Says His Airship is Certainly a Success.

The Earnshaw Aerial Navigation Company, of Jackson, Tenn., has authorized F. W. Earnshaw, the inventor, to construct within 90 days a model of his flying machine. It will be so built that with a small additional motor two persons can be carried. Mr. Earnshaw built a flying machine some years ago in Atlanta and while testing it the model escaped and Mr. Earnshaw has never heard of it since. He claims that he has solved the question of flying through the air and he has inspired confidence enough among business men at Jackson to receive funds for carrying out his idea.

The School Board of Paducah voted to allow the teachers full pay during the holiday vacation to the amount of \$1,000. Dr. J. R. The Weather.

Washington, D. C., Dec. 19. — For Kentucky: Fair and colder tonight. Tuesday fair.

A Duluth man this week broke one of his ribs in a severe fit of coughing and yet a great many people are being asked to take their lives in their own hands and cough up for Christmas purchases.

The County Commissioners at Toledo, O., have decided to encourage large families by adding \$5 to the monthly salary of every clerk in the court house, for each baby born in his family next year. Twins are to count double.

The tri-weekly Kentuckian seems to have struck a responsive chord in the hearts of the people. Many new subscribers are being added to the lists and the Saturday issue, intended principally for news, is about to be appropriated by the advertisers.

W. C. Hallowell, known as "Mysterious Red," has been sent to the workhouse in Louisville for disorderly conduct. He was the reporter who got Editor R. W. Knott, of the Post, into some very troublesome litigation.

Some practical joker wired Thos. W. Lawson that W. C. Greene, of New York was enroute to Boston to clean him up for his "frenzied finance" operations. Lawson answered the telegram with blood in his eye, but Greene ended at home ignorant of the excitement.

Hammond, Ind., is entitled to go up head in the fool class. The town council has not only passed an anti-spitting ordinance, but will locate public cuspidors on every corner and fine every spitter who misses the mark. Of course the man who has trained himself to drown flies will have a decided advantage, when the populace gathers around to spit.

SMALLPOX ABATING.

Another Big Batch of Patients Released Yesterday.

The smallpox scare in Christian county is over. The cases in the county hospitals have been reduced to 44 at Concord and 15 at Gracy. The few cases at Cedar Grove are all about well except Maxey Blythe and a railroad man from Gracy who was brought up Saturday with varioloid. The Gracy hospital can be closed this week and the others almost empty.

The situation in Trigg is growing worse. Dr. Backus, of Gracy, telephoned yesterday that there were six new cases in his Trigg county practice in one family of negroes.

Two deaths occurred below. One was a negro man named Alex Blair on the Bacon place and the other was Alex Downs, on the Tuggle place. Several other cases are reported in that vicinity.

DOG AND BADGER CHIRDS.

Several Hopkinsville People Mentioned in a Very Interesting Manner

Did you know that many animals like to play and romp with little boys and girls do? You have all seen the squirrels at the Zoo and how they comment and share one another, says the Philadelphia Ledger, but did you know, also, that even the birds and animals like the badger and weasel like to frolic?

A well-known German named Beckman had a pet badger and a dog who used to have great sport together. "They used to have a series of gymnastic performances," he writes, "on every pleasant afternoon, and their four-footed friends came from far and near to witness the performance. The game was that the badger, roaring and shaking his head like a wild boar, should charge upon the dog and strike him in the side with his head; the dog, leaping dexterously entirely over the badger, awaited a second and third attack, and then made the badger chase him all around the garden."

"If the badger managed to snap the dog's hindquarters they would have an angry tussle, but never a real fight."

Dogs and cats very often have games with their masters, too, as you know. There is a dog in this city that plays at "hide and seek" with his mistress by the hour, although she is always the one to hide.

The dog waits until she hides and culls, then he chases all over the house looking for her. He has not a keen scent, so it is a case of "seek till you find." When at last he discovers her hiding place he jumps and barks and wags his tail as much as to say: "My, but I'm a bright dog to find my mistress."

The latter can never hide in the same place twice, however, for the dog invariably looks in every place in which she has hidden before.

CHAS. M. LATHAM.

Former Wall Street Merchant - Not in the Mood

Mr. Chas. M. Latham, now at his home in this city, recently (30) 300 years old. He was for many years a leading and successful dry goods merchant, but retired from active business several years ago. For some time he had been in failing health and his death was not unexpected. Mr. Latham was the youngest son of Mr. John C. Latham, Sr., for many years prior to his death President of the Bank of Hopkinsville. His mother was Miss Virginia Glass, a daughter of Dr. David Glass. She was married to Mr. John C. Latham June 23, 1842, in this city. The venerable lady still survives, though she is in feeble health.

The subject of this sketch had lived all his life in this city and died at the Latham homestead, where he lived with his mother and sister. His only brother is the well known New York banker, Mr. Jno. C. Latham. Other relatives, representing some of the most prominent families of the city, live in Hopkinsville.

The funeral will probably be held this afternoon. His brother will arrive later in the week.

BOTH DRAMATIC

And Vaudeville Talent In This Company.

Kilroy & Britton's new play in which they will be seen at Holland's opera house for one performance on tomorrow night, styled "An Aristocratic Tramp," is from the pen of Lem B. Parker, author of "For Home and Honor," "A Quaker Wedding," "The Sinking City," and a dozen other popular successes. "An Aristocratic Tramp" is far above the average tramp show in every respect and contains more features in one single act than all the other so-called tramp shows in four. The scenic effects are gorgeously correct while the cast is made up of the very best dramatic talent New York affords. There are seven big specialty features in addition to the regular company, making the entire production second to nothing in this class traveling, and their reception here should be a hearty one to say the least.

DR. FENNER'S

Kidney

Backache Cure

Also Purifies the Blood.

Don't become discouraged. There is a cure for you. If you suffer with kidney trouble, a little of this will cure you. All druggists sell it.

Member of the Southern Men's League and one of the best known business men in St. Louis, Mo. Read what Mr. Wand has to say about Dr. Fenner's Kidney and Backache Cure:

"I know what it is to be afflicted with backache and I sympathize with those sufferers. After availing myself of various and fruitless remedies of this and that physician, I decided that if Dr. Fenner's Kidney and Backache Cure could not cure me, I would not do so any harm and I procured a bottle.

"Now the first bottle didn't stop those wearing backaches, but it did afford me great relief. The second bottle, however, did effectively put a stop to those racking backaches. Occasionally they returned when strenuous business affairs exhausted the physical forces, but a dose or two of Dr. Fenner's Cure gave instant relief.

the annual "jug boat," which makes
a trip up the Tennessee river just
before Christmas each year. This
year, owing to the increased de-
mand, there will be two boats to
carry the "over joyful."

The "jug boat" that goes out first
this year is the Clyde. She will leave
Paducah on the afternoon of Dec.
21, and the Tennessee will take out
the final consignment on the after-
noon of Dec. 24, carrying principally
jugs for towns that will be reached
in time for Christmas.

Moon.

There will be four eclipses next
year, two of the sun and two of the
moon. The first will be a partial
eclipse of the moon, Feb. 19, invis-
ible in the United States. The second
will be the annular eclipse of the
sun, March 6. This also will be in-
visible in the United States. The
third will be a partial eclipse of the
moon, August 14 and 15. Visible
over the United States from 7 p. m.
to 12:15 a. m., according to locality,
of points. The fourth will be a
total eclipse of the sun, August 30.
The path of the total phase on this
continent, lies through the Dominion
of Canada, but in the extreme
Northern portion of the United
States, East of Montana, the eclipse
will be very large. It will be at
sunrise along a line from Austin,
Texas, to Helena, Montana. East
of this line the sun will rise more or

less eclipsed to the Chesapeake Bay
and Buffalo, N. Y. The middle of
the eclipse will occur at sunrise
along a line from Tallahassee, Fla.,
St. Louis, St. Paul and Lake of the
Woods.

THEY NEVER FAIL.

That is What They Say About them in Hopkinsville, and it is therefore Reliable.

Another proof, some more to come. Hopkinsville is the headquarters of the old Quaker Remedy—Doan's Kidney Pills. Read this convincing endorsement of the same medicine that is available for prescription:

M. W. Davis, of Eades & Davis, dealers in coal on East Seventh St., at the E. & N. E. R., and who lives at 508 North Main street, says: "I advise the use of Doan's Kidney Pills in all cases similar to that of my son, who, for some time, complained of backache and was troubled with a kidney weakness which was very annoying at night. We tried many different remedies and he was treated by the family physician but nothing seemed to do him much good. I learned about Doan's Kidney Pills and got a box at Thomas & Trahern's drug store. He used them and there was a noticeable improvement in a short time. After he had taken all of the contents of that which had proven such an annoyance was entirely relieved. We consider Doan's Kidney Pills certainly worthy of strong endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

The Delineator For January.

With a most attractive cover and a varied list of contests, including the latest news of the fashions and literary and domestic features of the greatest interest, The Delineator for January is an altogether excellent number. The regular fashion display is supplemented by a striking illustrated article on "The Stage as a School of Costume," showing the close relations that exist between the theatre and the world of style. Herbert D. Ward and Seumas MacManus contribute stories of rare charm and under the pseudonym "Marie Columbia" a very clever writer describes the "smart set" in Washington society. "Jesus, Lover of M. Soul" is the first paper in a series, by Adah Sutherland, giving the history and romance of the famous hymns of the world, and in the "Composers' Series" the love story of Mendelssohn and Cecile is related by Gustav Kolbe. For children there is a wealth of interesting matter, the names of L. Frank Baum and Grace McGowan Cooke being prominent among the contributors. Among the domestic topics, in addition to the regular features, is the first paper of "The Making of a Housewife," by Isabel Gordon Curtis. A new department, "Good Looks," supplements a series along similar lines that appeared during the past year.

The Blind May See.

Dr. D. Garfield's Eye Remedy cured hundreds in Tennessee who were nearly blind with sore eyes, granulated eyelids, watering, itching, burning, inflamed eyes, and with many other ailments. Many had scars or pterygia on their eyes could not see their way, were given up by doctors as incurable after paying out hundreds of dollars. Call or write for free sample, and you will be convinced that you can be cured. No matter how severe your case is, but of how long standing, address Dr. D. Garfield, 606 North Sumner Street, Nashville, Tennessee.

The Democratic state central committee will meet in Frankfort Wednesday, December 21, to hear contests arising from the election of precinct committeemen and to approve the appointments of committeemen in the cities.

NO COURTSHIP IN FRANCE.

Lovers Are Not Permitted the Liberties That They Are in This Country.

The word "courtship" has no equivalent in the French tongue, because the thing itself does not exist. Stolen kisses, even festive kisses, may, of course, be indulged in, but only under a modest chaperonage, the half-shut eye of parents or guardians. No young French lady would be permitted, for instance, to undertake a cycling expedition with her future husband. Still less could she take train with him for the purpose of visiting relations in the country, were the journey of half an hour's duration only. Lovemaking begins with the honeymoon, says the Cornhill Magazine.

For centuries, alike in the humblest as well as the highest ranks, matrimonial settlements have kept family possessions together in France—and enriched village notaries!

No sooner was serfdom abolished than the peasants followed bourgeois example, dowering their daughters and securing the interest of their sons by law. In provincial archives exist many of those documents, the rustic bride's portion consisting of furniture, clothes, money, and sometimes cattle or a bit of land. The archives of the Aube contain the marriage contract of a skilled day laborer, immovier and a widow whose property was double that of his own. The deed secured him joint enjoyment and ownership. Located here, of course, enter into the intricacies of the French marriage laws. There is the regime dotal, which safeguards the dowry of the wife; there is the regime de la communauté, which makes wedlock strictly a partnership as far as income and earnings are concerned. And there are minute regulations as to the provision for children and widows. The latter are always sacrificed to the former.

FREAKS OF DYNAMITE FORCE.

One Was the Embedding of an Oak Leaf in a Block of Metal.

Two interesting exhibits of force of dynamite are shown in the museum of the Stephens institute of technology, in Hahoken. They are steel blocks, six inches in diameter and four inches thick, showing respectively the impression of an oak leaf and the imprint of a headline of a western newspaper.

It was during a test of high explosives, says the New York World, that a cartridge of dynamite was placed on a newspaper covering the block of steel, the object being to see how much dynamite would be required to split the metal. The dynamite was fired without injury to the steel; but to the surprise of the experimenter the print of the newspaper was deeply pressed onto the metal.

The experiment was repeated, with the same result, and then was elaborated by trying the charge on an oak leaf placed between the block and the dynamite. This time the stem and the ribs of the leaf were deeply impressed in the metal.

"What happened in this," said the expert in charge. "Unlike most other explosives, dynamite exerts practically all its crushing force downward, and not in a general direction. So inconceivably quick and forceful is the discharge of this powder that the imprint of the ribs of an oak leaf are made before the leaf has had time to be blown to atoms. In the case of the newspaper it appears that where printers' ink touches the paper the paper is hardened and more capable of resistance than in other places, and so it is that before the paper is destroyed the printing on it is forced deep into the metal."

Ready - to - Wear
and Trimmed
Hats.

Also Children's Hats and Headwear. The Popular Price Milliner,

Miss Fannie B. Rogers,
No. 210 South Main.

TO OUR FARMER FRIENDS.

Clarkeville, Tenn., Nov. 5, 1904.

This crop of tobacco bids fair to be of better quality than the last one, and it is undoubtedly a short crop in quantity, and we wish to go on record as predicting BETTER PRICES than last season. If you will put your tobacco on the open market for sale, either LOOSE or PRIZED, it will go far towards solving the trust proposition. The private sale is mainly what is ruling prices. Sell your tobacco where the whole world can have a chance to buy it, and you will undoubtedly realize better prices.

Assort and order your tobacco well and put it on the Loose Floor and we will get you full prices. Liberal advances made on consignments. Free quarters for men and teams within the warehouse.

Thanking you for your patronage, we are,
Your friends,

Kendrick-Runyon Tob. Warehouse Co.
